

are urged to repeal the restriction on government to negotiate reductions in prescription drug prices with manufacturers; and be it

*Further resolved*, That certified copies of this Resolution be transmitted to the President of the United States, the Speaker of the House of Representatives of the United States, the President of the Senate of the United States, and the members of Hawaii's Congressional delegation.

POM-443. A resolution adopted by the House of Representatives of the Legislature of the State of Florida relative to the distribution of Medicaid funds; to the Committee on Finance.

#### HOUSE MEMORIAL NO. 25

Whereas, Florida is the fourth most populous state, with 16.4 million residents, and

Whereas, more than 2 million Floridians live in poverty and approximately 2.8 million Floridians have no health insurance whatsoever, and

Whereas, it is a moral incumbency that every Floridian have access to quality, affordable health care, and

Whereas, impoverished Floridians have more difficulty securing quality, affordable health care, especially if they are uninsured, and

Whereas, Florida participates in the Federal Government's Medicaid program to support those impoverished citizens and ensure their access to health care, and

Whereas, when Medicaid was created in 1965, one of its purposes was to reduce the differences among the states regarding their respective abilities to fund medical services for the impoverished, and

Whereas, federal funds for Medicaid are distributed to the states based on a funding formula that uses per capita income as a key indicator of a state's ability to support its impoverished population, and

Whereas, numerous reports from the United States General Accounting Office dating back to the early 1980s demonstrate that per capita income is a poor indicator of a state's funding ability, and

Whereas, the use of per capita income assumes that states with lower per capita incomes have higher rates of poverty, which is a false assumption based on data from the United States Census of 2000, and

Whereas, the funding formula does not account for states' respective populations in poverty, the wealth distribution of larger states, or the costs to serve Medicaid populations in respective states, and

Whereas, the use of per capita income in the funding formula fails to accurately reflect the needs of the more populous states, and

Whereas, the use of a state's total taxable resources in the formula, as recommended by the General Accounting Office, would result in Florida receiving hundreds of millions of dollars more of federal funds in distribution, which amounts to its fair share, and

Whereas, according to the 2002 financial data of the Agency for Health Care Administration, uncompensated care in Florida's hospitals is growing at the rate of 12 to 13 percent per year, Medicaid caseloads grew almost 7 percent in the last fiscal year, and the costs of the Medicaid program continue to grow at an alarming rate, and

Whereas, because of the poor reimbursement rates offered to Florida's physicians due to the disparity created by the funding formula, many doctors have limited their provision of services for Medicaid patients and some have stopped treating Medicaid patients altogether, and

Whereas, this decline in the number of physicians who will treat Medicaid patients threatens the quality and availability of

health care to impoverished Floridians: Now, therefore, be it

*Resolved by the Legislature of the State of Florida*, That the Congress of the United States is requested to pass legislation to change the existing formula for the distribution of Medicaid funds from a formula based on per capita income to one based on total taxable resources and the poverty rate, thereby providing a more equitable distribution of Medicaid funds to the states and bringing the Medicaid program closer to compliance with its stated legislative goal; and be it

*Further resolved*, That copies of this memorial be dispatched to the President of the United States, to the President of the United States Senate, to the Speaker of the United States House of Representatives, and to each member of the Florida delegation to the United States Congress.

#### INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. NELSON of Nebraska (for himself and Ms. COLLINS):

S. 2426. A bill to amend title XVIII of the Social Security Act to clarify the treatment of payment under the medicare program for clinical laboratory tests furnished by critical access hospitals; to the Committee on Finance.
